

Liebert RPCBDM-1000 Display Module - provides local display of monitoring data for all connected Liebert MPX, MPH, MPH2, GXT3, GXT4, and RDU-S systems. Place displays for monitoring your PDUs, UPSs and Racks where ever is the most convenient for your setup.

Display information is accessed via a navigation switch on the RPC BDM. A cable is connected directly from the RPC BDM to a Liebert RPC-1000 or RPC-2000 network interface card. A single display can be used for up to four MPH2 Rack PDUs connected as a Rack PDU Array.

Package includes: (1) RPCBDM-1000 Display Module, (1) Connection cable, 2m, (1) Mounting Set.
